

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

" UNTIL THE NATION POSSESSES A GOOD SYSTEM OF CATALOGUES, IT CANNOT KNOW THE EXTENT OF THE LITERARY WEALTH IT POSSESSES A CATALOGUE CLASSIFIED AS TO *SUBJECTS*, WITH AN ALPHABETICAL LIST OF AUTHORS, WOULD BE THE BEST."

ADDRESS.

THE compilation of this Catalogue, in the midst of various daily avocations, has been a source of continuous care and anxiety; and the pleasure now experienced at its completion is not a little alloyed by the apprehension that there may be many omissions, and much that might have been improved upon. The introduction, so long desired, of the *dates of publication* to our General Catalogue of British Literature, affords, however, the satisfaction that the foundation is laid for some future more perfect compilation of a like character, and induces the hope that, notwithstanding defects, this Volume may prove of considerable service to many.

S. L.

47, LUDGATE HILL:

March 1853.

EXPLANATION.

THE present volume comprehends all the New Works, New Editions, and Books altered in Size or Price, issued in Great Britain between the years 1837 and 1853, including the Supplemental Catalogues: these are arranged in alphabetical order, and by referring to the "Publishers' Circular" of the same date as any required book, a perfect transcript of the title will be found.

It is proposed very shortly to publish a Second Volume, which will be a complete index to the contents of the first,—systematically arranged, so as to afford the easiest reference to all Works upon any given subject, including all Works published in "Collections," "Libraries," &c., as well as all Works published by "Societies" and "Printing Clubs;" with much other useful information to Book Collectors, Publishers, and Booksellers.

The "Publishers' Circular and General Record of British and Foreign Literature" is published on the 1st and 15th of every month, and may be obtained by order through any Publisher or Bookseller; and, being a stamped paper, is forwarded free by post. The subscription is 8s. per annum.
